

Alaska Career Ladder

Molders, Shapers, and Casters, Except Metal and Plastic

Estimated Employment: n/a	n/a
Molders, Shapers, and Casters, Except Metal and Plastic	
Moderate-term on-the-job training (1-12 months)	

A career ladder for this occupation was not identified. This may be due to any of the following reasons:

1. There was minimal or no employment for this occupation in Alaska over the time period studied.
2. There were an insufficient number of occupational transitions to and from this occupation to confidently identify a career ladder.
3. The occupation is an entry level occupation (often after attaining educational prerequisites) and there was insufficient evidence of advancements to any particular higher level occupation(s).
4. The range of jobs that fit into the occupational definition was too diverse, resulting in too wide of a dispersement of occupational transitions to identify a career ladder.
